Startpage teaser  
Technical Specifications

The start page teaser is adapted from the content of the stand alone email. We use the header image of the email and provide suggestions for the content of the teaser.

The teaser can contain up to 160 characters.

We design your teaser in your company colours and, if desired, we also integrate your logo.

## What we need:

- ✓ Logo as vector image (if desired)
- ✓ Clicktracker (in case you additionally want to track the campaign from your end)
